☒ Legal and policy frameworks
☐ Addressing online harms
☐ Addressing harmful norms
☐ Governance and coordination structure
☐ Minimum standards and oversight
☐ Human, financial and infrastructure resources
☐ Child participation and community engagement
☐ Continuum of services
☐ Data collection and monitoring
☐ Other

Parent and caregiver support

- Implementation of the National Standards for Parenting Programs and the National Parenting Training Modules at least in the main regions where the level of violence is highest by 2027.
- Review the functions of existing child support centres and activate positive parenting sections to provide ongoing consultation and training services to parents by 2028.

Safe and enabling school environments

- The government of Kyrgyzstan commits to create safe learning environments by promoting positive discipline and integrating new programs in all schools to prevent VAC by 2030.
- Develop and implement the curriculum for children “Safe School” as a main subject, which includes lessons on VAC, online sexual exploitation, cyber security, and life skills.
- Develop and roll out of parenting programs in schools as part of classroom hours and parent-teacher meetings to address corporal punishment.

Legal and policy frameworks

- Amend the Children’s Code 2012 to prohibit corporal punishment in all settings by 2030.
- Develop a five-year national strategic framework (2025-2030) to address VAC

Response and support services

- To implement a network of cameras on the main streets of large cities and districts where the main facilities for children and youth are located (preschools/schools/universities/ boarding institutions).
- To unite state bodies into unified digital network for the data exchange on facts of violence (detection, prevention, provision of services) by 2028.

1st Global Ministerial Conference on ending violence against children
